## FOOD IN NEW MEXICO

The challenge is for New Mexico to become a food secure and food conscious state within five years. Food security means no New Mexican will suffer hunger. Food consciousness is the widespread awareness of what constitutes clean, healthy food, where it comes from and how it can best be enjoyed. The focus of the research will be: 1) production/processing; 2) distribution; and 3) preparation. There will be overlap in these areas. Resources explored will be governmental, non-governmental organizations, business/commercial, and individual.

The following inventory of resources is random and has not yet been organized by importance.

1. Feeding America [feedingamerica.org](http://feedingamerica.org) Data-heavy overview of food bank and food pantry distribution.
2. New Mexico CYFD, ECS, FNB [summerfoodnm.org](http://summerfoodnm.org) Preparation and distribution of school childrens' meals.
